QUALITY POLICY & SAFETY POLICY

QUALITY POLICY: Providing optimum services to the maximum pleasure of customers. The employees in all the departments in the company are dedicated to achieve the goals of customer satisfaction. The company recognized that to maintain its position as market leader, an effective and dynamic Quality Management System is essential. Serving our customers is the primary consideration at Musfir General Contracting Company. The quality policy is defined with the objective to achieve customer satisfaction.

Will focus on each and every pros and cons of the customer demand.

This policy statement underlines the commitment of the Management and work-force towards achieving Quality in all areas resulting in total and consistent customer satisfaction, leadership in all areas of Business and continually improving the effectiveness of the Quality Management System.

Employees at all levels in the Organization will be made aware of the Company's Quality Policy through continuous training.

The design of any product & services shall fully meet the customer's quality requirements including functional, aesthetic, reliability and performance characteristics.

The Company is committed to upgrade and augment, technology, facilities and product performance to meet changing market scenario

SAFETY POLICY: The safety of our employees, and the public, is of the highest priority. It is our policy that our safety rules shall be strictly observed at all times. Although these rules are to be considered very important, it is impossible to publish a rule that covers every circumstance. If a rule that might cover a specific hazardous condition has been omitted, that shall not be an excuse for disregard of common sense in the safe performance of our work. Maintaining excellence in the safety of the work being done is a primary requirement not only for wellbeing of the personnel engaged in construction work but also for the benefits that accrue through higher moral and the expedition of the construction time of a project. It is for this reason, a safety program is formulated. Accident prevention shall be considered of primary importance in all phases of operations and administration. The management has put forward some safety policies. The policy insists to maintain open communication between management and staff on matters pertaining to safety. All employees are encouraged to express their concerns or suggestions to help promote safe work practices and conditions. Safety and accident prevention is everyone's responsibility. The management has always been showing keen interest on the safety policy. The reason is just the dedication of the tier 2 level peoples to the company is in such a way; and the management will thus be forced to provide some luxuries in terms of safety policy. Promote a positive attitude towards accident prevention. Outlining the training and competence required to prevent occupational hazards. Establish and insist upon safe work practices and conditions following safe work practices, preventing injury and ill health, and continually improving the effectiveness of system. Provide appropriate supervision, training, and monitor conformance to quality standards Ensure employees and other persons understand and accept their responsibility to promote a safe and healthy work place Ensure that contractors working on our premises have, and follow, appropriate safety procedures.

HEALTH & ENVIRONMENT POLICY

Health & Environmental Policy are to be considered very important, it is impossible to publish a rule that covers every circumstance. The management has always been showing keen interest on the H&E policy. The reason is just the dedication of the tier 2 level peoples to the company is in such a way; and the management will thus be forced to provide some luxuries in terms of safety policy.

Promote a positive attitude towards accident prevention.

Outlining the training and competence required to prevent occupational hazards.

Establish and insist upon safe work practices and conditions

Following safe work practices, preventing injury and ill health, and continually improving the effectiveness of system.

Provide appropriate supervision, training, and monitor conformance to quality standards

Ensure employees and other persons understand and accept their responsibility to promote a safe and healthy work place

Ensure that contractors working on our premises have, and follow, appropriate safety procedures.

The successful execution of safety policy will certainly ensure the wellbeing of health & environment of the company. There is no need of any further distinguishing claims. Health and environment policy is coiled to ensure that all work processes are carried out in a safe manner. The company is also aware of the facts that health safety & environmental protection form an integral part of business objectives. The major line of responsibility of Gulf Trends Supports and Services are managing Health, Safety and Environmental Protection

CONTRACTING

Musfir has transformed in a short span from a civil contractor to a well groomed infra-structure and development construction company. The Company has vision to provide the customers an innovative architecture in affordable prices with international quality. We had a strong back up of skilled laborers along with the supervision of highly qualified Engineers and supervisors. Hence the maintenance and the construction of civil infrastructures have become easy for us. The architects with a designing mentor-ship beyond imagination of the ordinary people are the added point to the glory of us. The underlying workers are always been enjoying the work environment of the company so that the products' finish is showing it. The clients are always enjoying the luxury being offered by the Gulf trends Supports and Services. The humans' quest to better comforts are always escalating and demanding new heights. The existing projects are the proving mile stones of the touch of professionalism by us.
